PERSONAL PROJECTS

ToDo Today

- I created this web application not only in React but also using the publisher-subscriber model too.
- This app has the feature of multi-deletion and multi-completion of tasks too.
- This app is mobile friendly too.
- **Technologies** : HTML5, CSS3 and Javascript.
- <https://to-do-tasks.netlify.app/>

My Personal Website

- This is my personal website. Here you can have a look at all my personal projects.
- Made this website responsive using bootstrap.
- **Technologies**: HTML5, CSS3, Bootstrap and jQuery.
- <https://arunkumarmahanthi.netlify.app/>

Check Your Luck

- This is a fun web application. It generates a random number & images based on the current situation.
- Orchestrated beautiful design using latest web standard.
- Made site responsive using media query.
- **Technologies** : HTML5, CSS3 and JavaScript.
